

Solutions for tunnels

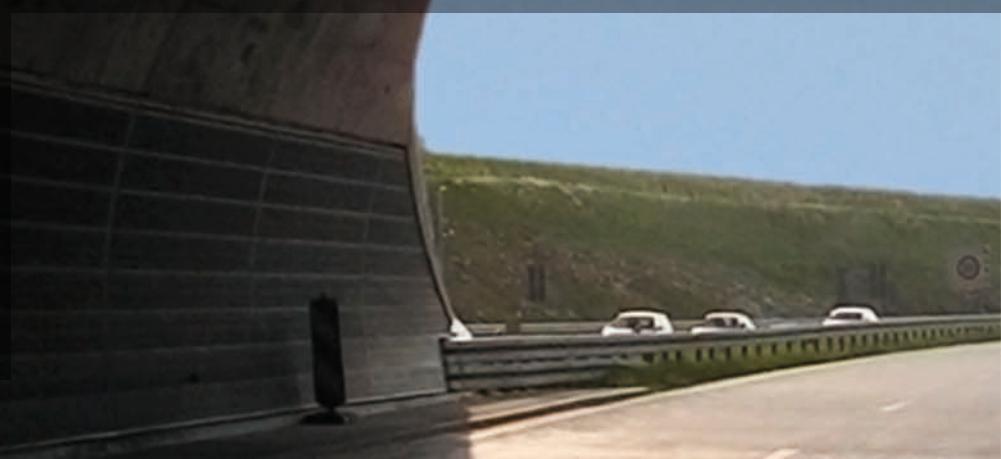

THINK CONNECTED.

OBO solutions for fault-free operation and maximum safety in tunnel construction.

Each year, Europe's tunnels are tested when the holiday season begins. A large number of accidents and fires have lead to a rethink and consequent modernisation of most systems. Today, the requirements – even for the electrical infrastructure – are enormously high. OBO makes the passage safer.

Think connected

OBO stands for networked thinking – all over the world our systems provide a reliable backbone for building and system technology for industry, commerce and infrastructure systems.

Contents

Comprehensive solutions – from the entrance to the exit

They are usually invisible, but ensure a good, safe feeling. OBO systems for tunnel construction

- Create passive safety
- Function reliably if there is a fault
- Ensure a reliable power supply and error-free data transmission
- Fulfil all the requirements of modern fire protection

Our selection for your project

This solutions catalogue contains a select of our products for tunnel construction projects. You can find over 30,000 additional products for all areas of electrical installations in our seven main catalogues or on the Internet.

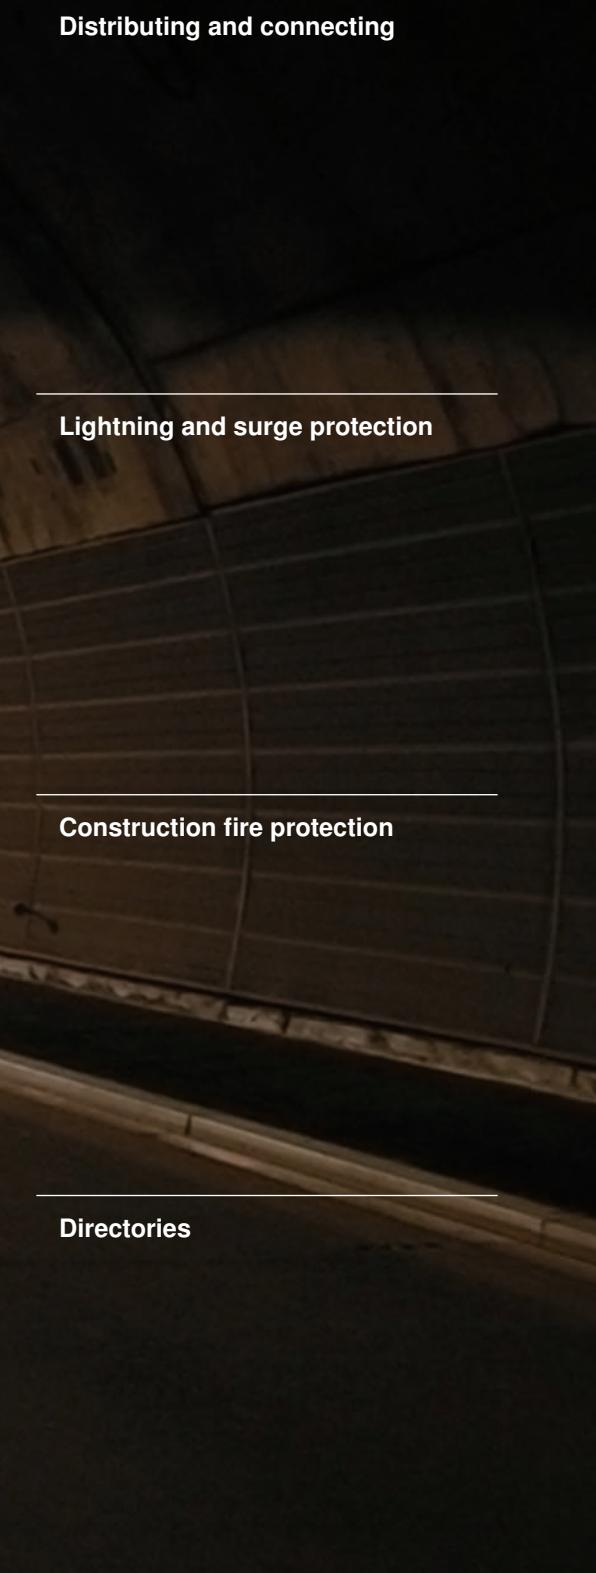

Cable routing

Distributing and connecting

Lightning and surge protection

Construction fire protection

Directories

Overview of OBO systems

Cable routing

For practical, mounting-friendly cable routing. Whether individual routing or routing of an array of cables running in parallel – you can find the perfect system here.

Distributing and connecting

For safe connection of the electrical cabling system and the maximum IP protection.

Lightning and surge protection

To protect the control and power centre against surges and partial lightning currents.

Construction fire protection

Tested fire protection systems, preventing the spread of fire, smoke and heat through wall and masonry penetrations.

Tunnels are not all the same

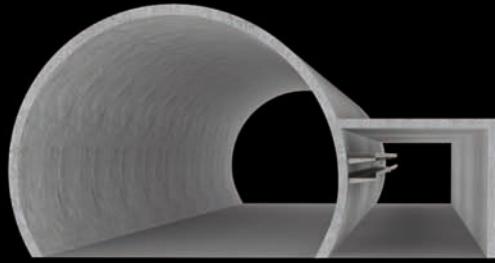

With regard to the accompanying planning for tunnel systems, experience has shown us that each project will have its own conditions and requirements for technical equipment.

The OBO consultants and developers know exactly what is required and include important requirements with regard to the environment, corrosion protection, control technology and safety into the planning and construction processes from the very start.

A perfectly equipped testing centre is ready for this, in which not only our standard products are tested but also project-specific special solutions as well. The highly modern, flexible production facility permits constant availability of OBO products.

Solutions for all kinds of tunnels

Whether a round or square cross-section, with or without supply shaft, emergency exit route, inflow and exhaust air supply or direct ventilation and de-aeration – whatever the parameters of your tunnel project area: OBO has the right solutions for cable routing.

Our motto: Always do it better

We like short routes – in any phase of a project. This is why, at OBO, everything comes from one source. This ranges from personal on-site consultancy, through planning and highly modern production, right up to quality assurance and logistics. With comprehensive in-house storage capacities and an extremely high availability in specialist wholesalers, OBO products are always available quickly and anywhere in the world. And the OBO Customer Service is available to offer help and advice for special requirements.

We want to be the best. Therefore, we always take a critical look at our services and products – without any compromises.

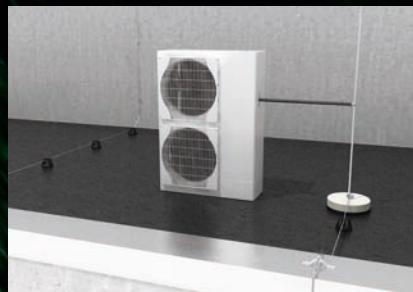

Functionality and fault-free operation are guaranteed

Trouble-free normal operation is the top priority for the operator of a tunnel system. To ensure that this is possible, all the components used must fulfil high material requirements. OBO tunnel construction products are resistant against high levels of moisture and pressure.

OBO has the right solutions for cable routing in various different qualities of stainless steel. If requested, a high-quality coloured coating can be applied and a wealth of installation material for the toughest jobs is available.

The significance of a functioning tunnel only really becomes clear when there is a problem. There are reliable OBO lightning and surge protection systems available to prevent such failures, along with components for earthing and equipotential bonding.

Gain speed with the OBO Magic solutions

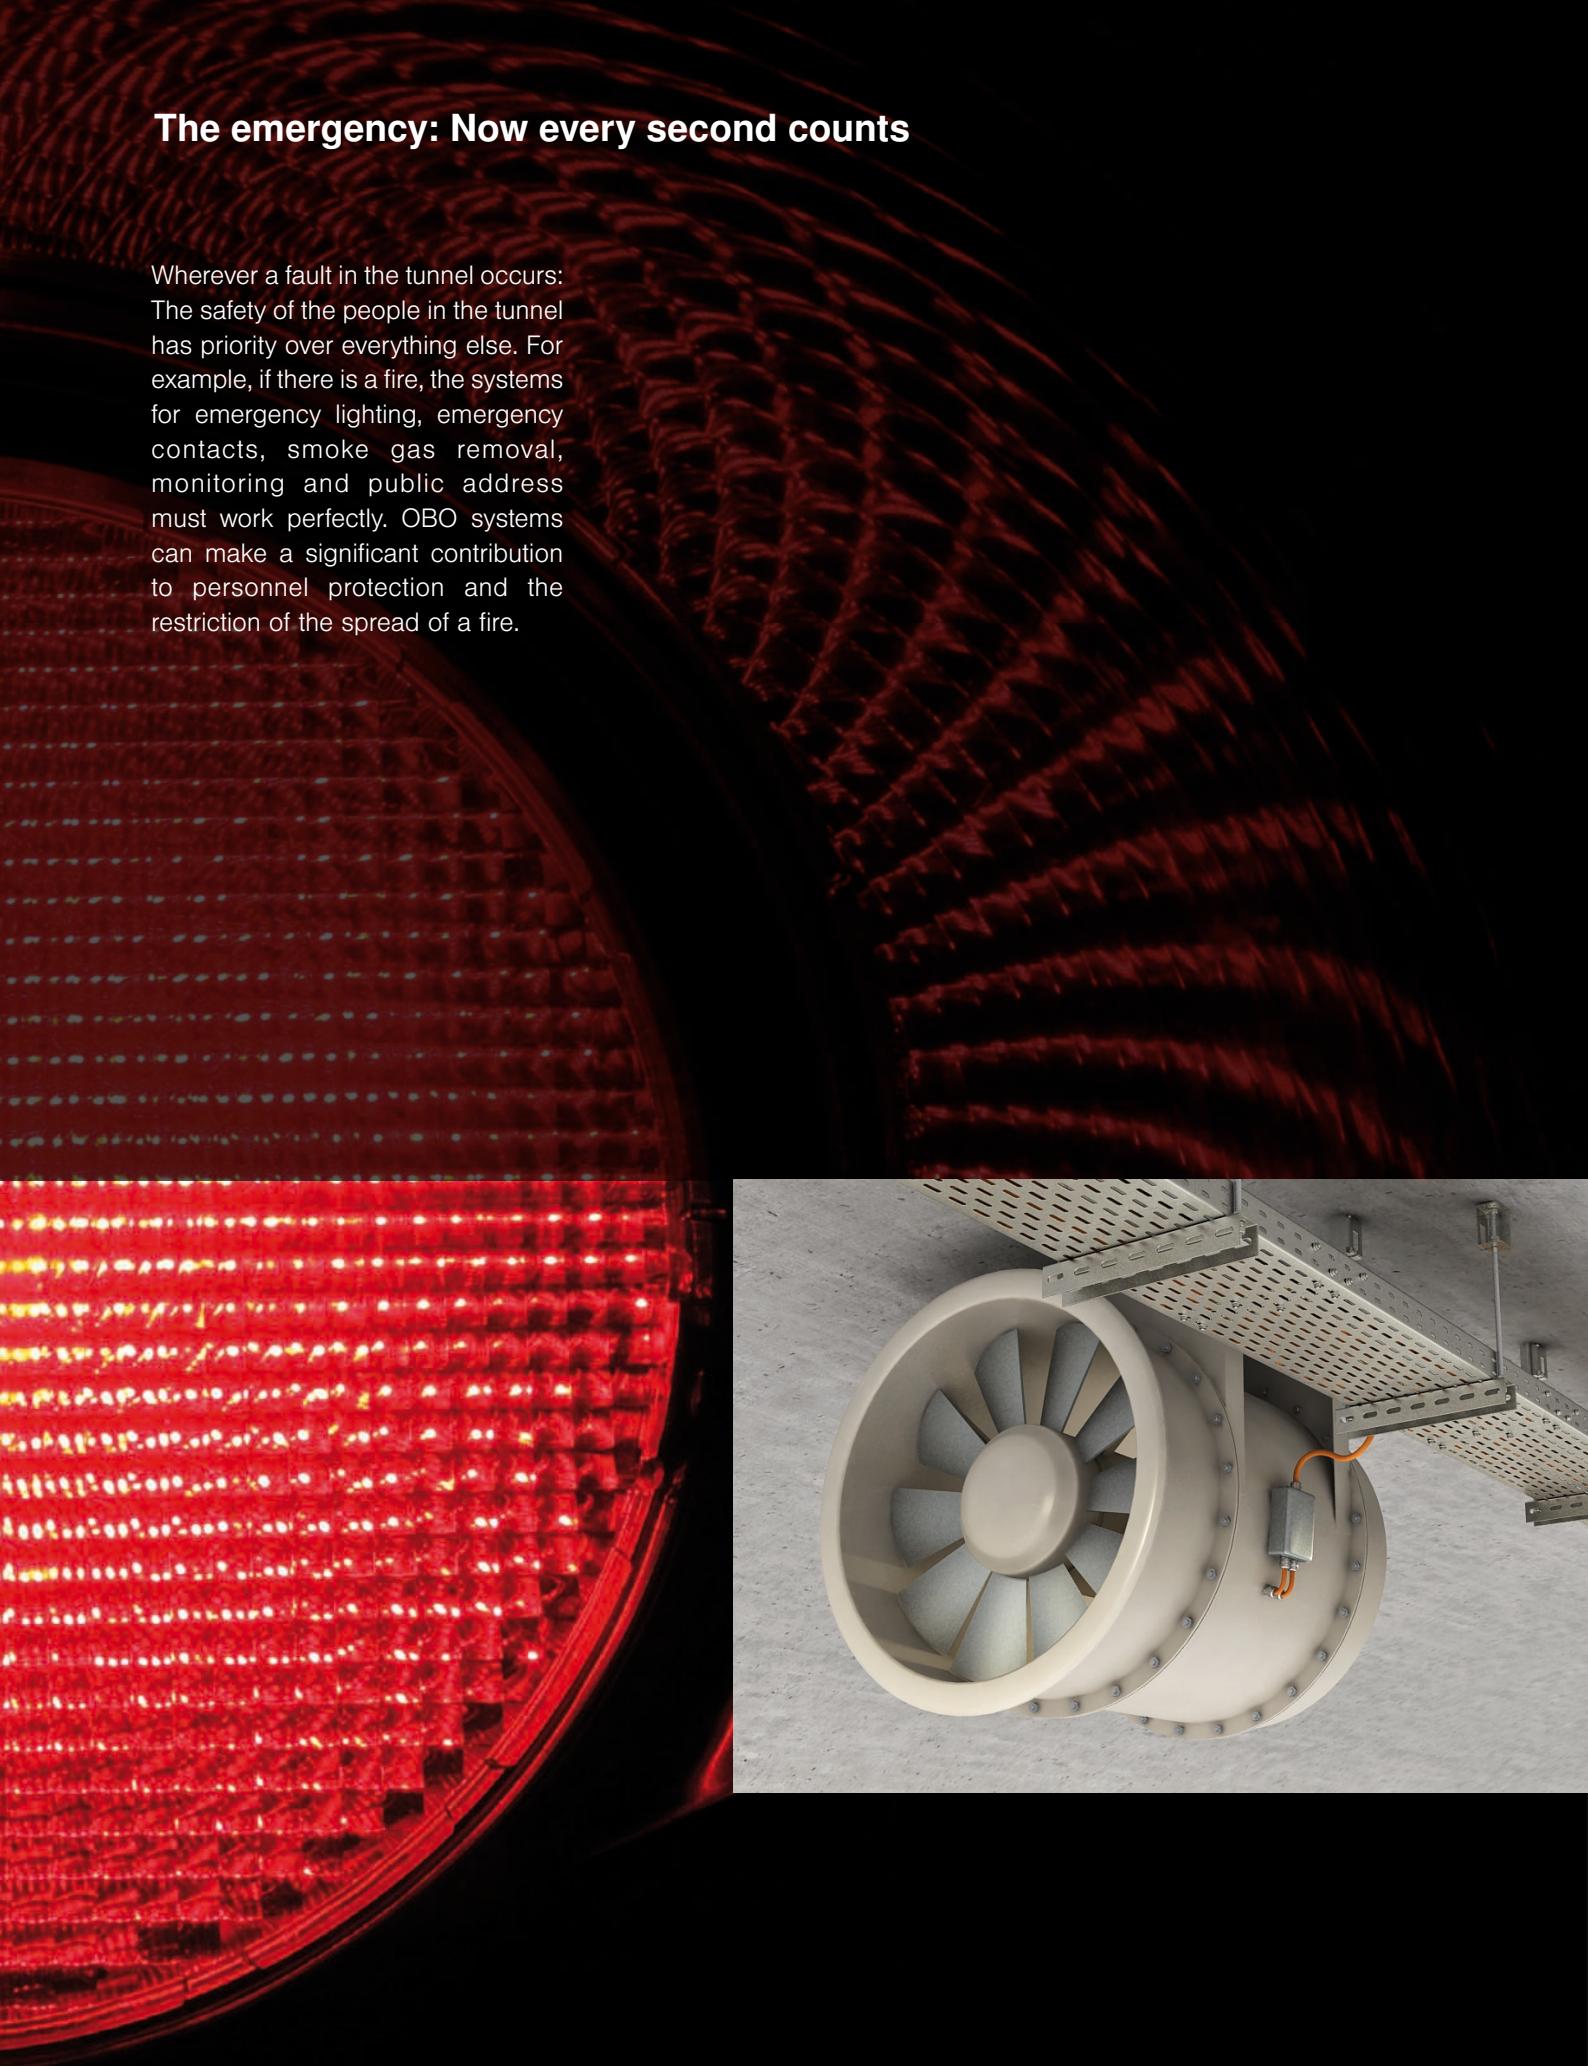

The mounting time is a decisive factor in the choice of products for tunnel construction. OBO has set new standards in this area. The mounting time could be reduced considerably with the quick fastening of (mesh) cable trays.

The OBO GR-Magic® and RKSMagic® quick mounting systems are an ideal solution if the tunnel project has to be completed quickly. They minimise down times and make a considerable contribution to meeting the deadlines of a construction project.

The emergency: Now every second counts

Wherever a fault in the tunnel occurs: The safety of the people in the tunnel has priority over everything else. For example, if there is a fire, the systems for emergency lighting, emergency contacts, smoke gas removal, monitoring and public address must work perfectly. OBO systems can make a significant contribution to personnel protection and the restriction of the spread of a fire.

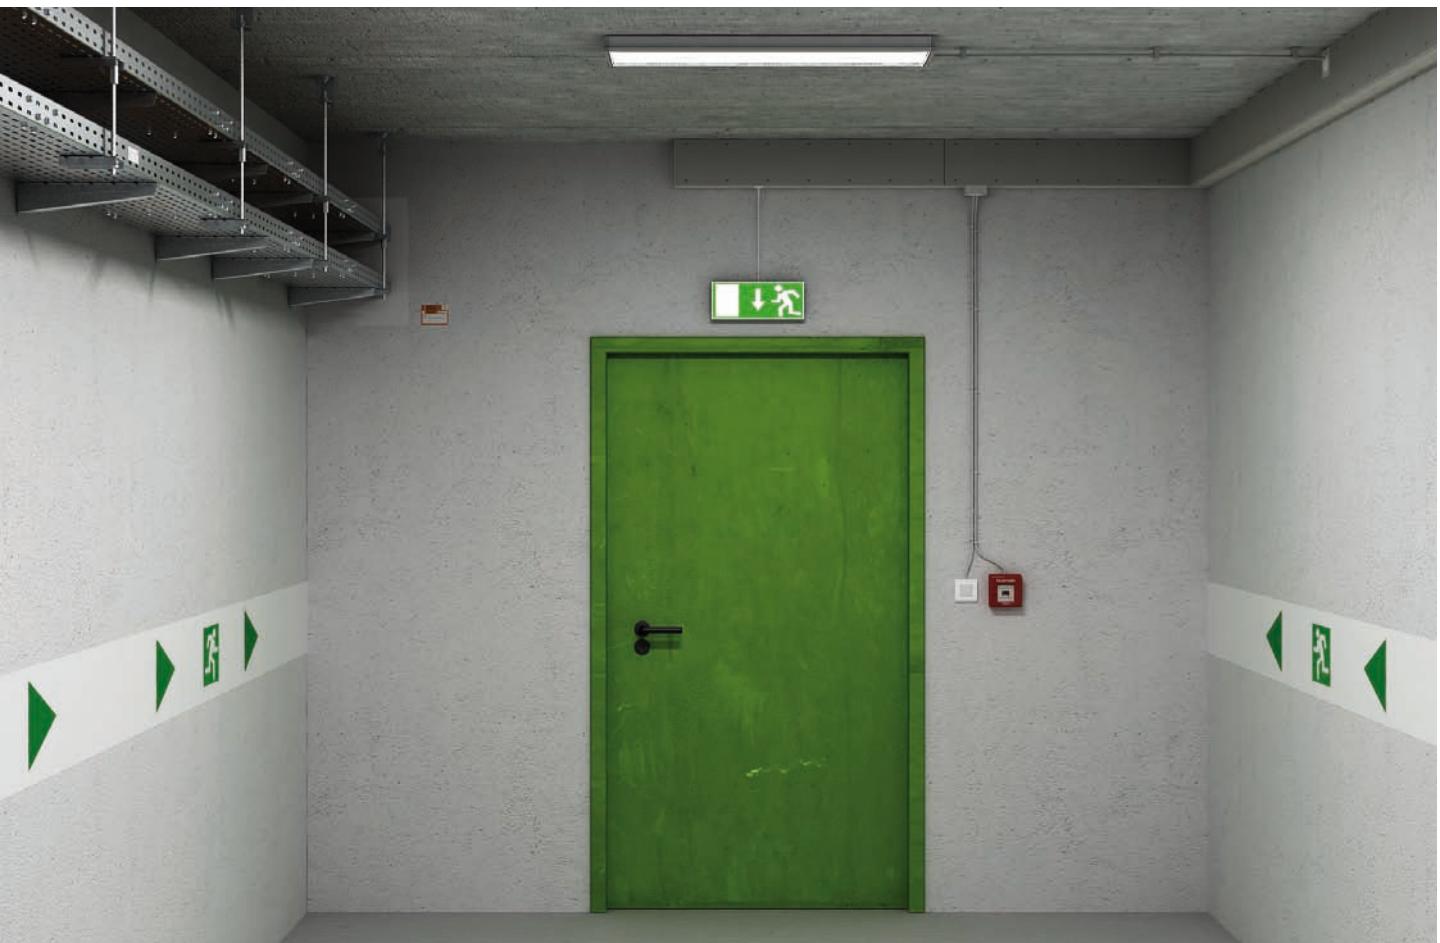

Function maintenance

OBO function maintenance systems are tested and approved according to DIN 4102-12. The cable support systems were developed especially for function maintenance in the classes E 30 and E 90. Their hallmarks are spans of up to 1.5 m and a load capacity of up to 20 kg/m. Then the cable tray can be routed in one or two layers. Individual holes can be made with single clips or clamp clips.

Insulation

Tunnel constructions have a dense network of power and data cables, even running through walls and ceilings. These construction limitations for fires must be particularly protected in order to prevent a fire from spreading via these wall penetrations – the OBO insulation systems can guarantee this.

Installation for basic installations

The following pages contain our range of practical and easy-to-mount cable routing systems. From routing systems for a wide range of cables routed in cable trays up to open or closed routing with pipes and single clips. OBO can offer comprehensive systems with different material qualities.

Installation of safety-relevant function maintenance systems

To aid orientation, at the end of this section, you will find the function maintenance systems and fire protection ducts specially developed and tested for this area. The cable trays tested for function maintenance excel through the choice of different materials and a large proportion of holes. This means that cable trays of type DKS, which is more than 30% holes, can be used under sprinkler systems and can drain any collected liquid with ease.

Quality makes the difference.

The following pages contain a small overview of our product range for cable routing, specifically for the requirements of tunnel construction. When selecting the articles, we prioritised the quality of articles made of stainless steel. Of course, all the systems listed here as well as others are available in other materials and surfaces. The main catalogues of the different product units contain a detailed overview of our complete product range.

BSK-E121026	380	185	1	7215 27 8

/pc.

End piece for fire protection duct BSK I120/E90
 Including bolts and sealing strip.

BSK fire protection duct for direct wall and ceiling mounting

Cable routing

BSK sealing strip I 120/E 90

Type	Dimension mm	Length m	Weight kg/100 pcs.	Item No.
BSK-D1260	5 x 60	15	74.200	7215 43 2

Self-adhesive sealing strip for BSK I120/E90.

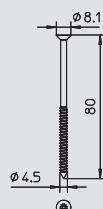

BSK countersunk head screw I 120/E 90

Type	Dimension mm	Pack. pcs	Weight kg/100 pcs.	Item No.
BSK-S1280	4.5 x 80	50	0.500	7215 41 2

ST Steel **G** Electrogalvanised price/100 pc.

Countersunk head screw for BSK I120/E90, for cover fastening.

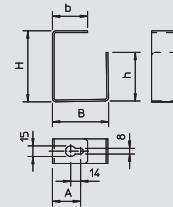

BSK separating clamp for ceiling mounting

Type	Dimension H mm	Dimension h mm	Dimension B mm	Dimension b mm	Dimension A mm	Pack. pcs	Weight kg/100 pcs.	Item No.
BSK-B0511	46	18	55	37.5	36.5	25	7.500	7215 35 6
BSK-B0521	46	18	105	62.5	52.5	25	14.500	7215 36 2

BSK-W1026	101	75	97.5	65	25	17.500	7215 33 0

ST Steel **FS** Strip-galvanised price/100 pc.

Separating bracket for BSK fire protection duct, as installation aid for wall mounting. Fastening by clamping under the fire protection bolt tie.

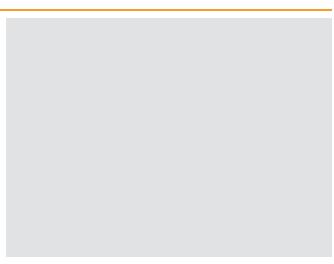

BSK mortar

Type	Pack. pcs	Weight kg/100 pcs.	Item No.
BSK-M	1	350.000	7215 50 0

/pc.

Fire protection duct mortar, dried ready-to-use mortar in a bucket for filling joints and small cracks when mounting the fire protection ducts BSK and BSKH.

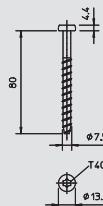

Fire protection bolt tie

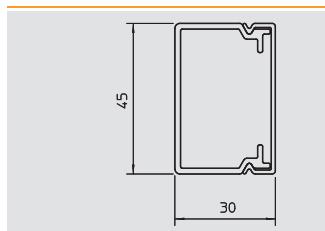

Type	Dimension mm	Pack. pcs	Weight kg/100 pcs.	Item No.
MMS7.5X80	7.5 x 80	50	2.174	3498 27 1

ST Steel **G** Electrogalvanised price/100 pc.

Fire protection bolt tie with pan head, drive T40, drill hole 6 mm. Fire protection tested according to DIN 4102. Fire resistance class to F90.

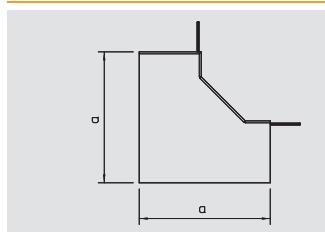

Wall and ceiling duct

Duct, type WDK-H 30045

Type	Colour	Length mm	Pack. m	Weight kg/100 m	Item No.
WDK-H30045	Pure white	2000	32	28.000	6175 00 8
PC/ABS	Polycarbonate/Acrylnitrile-butadiene-styrene			/m	

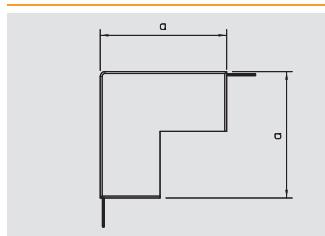

Trunking cover and base With base perforation made of halogen-free plastic.

Internal corner hood

Type	Colour	Dimen- sion a mm	Pack. pcs	Weight kg/100 pcs.	Item No.
WDK-HI30045	Pure white	60	1	2.200	6175 05 1
PC/ABS	Polycarbonate/Acrylnitrile-butadiene-styrene			/pc.	

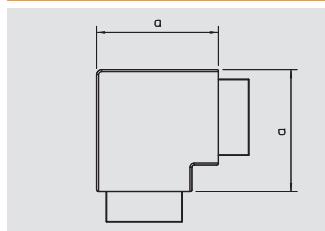

Internal corner cover for changing the direction of the halogen-free WDK-H trunking.

External corner hood

Type	Colour	Dimen- sion a mm	Pack. pcs	Weight kg/100 pcs.	Item No.
WDK-HA30045	Pure white	60	1	2.700	6175 10 3
PC/ABS	Polycarbonate/Acrylnitrile-butadiene-styrene			/pc.	

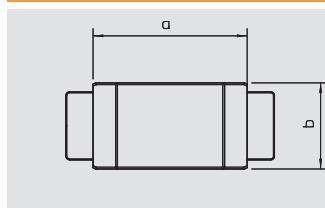

External corner cover for changing the direction of the WDK-H trunking.

Flat angle hood

Type	Colour	Dimen- sion a mm	Pack. pcs	Weight kg/100 pcs.	Item No.
WDK-HF30045	Pure white	60	1	1.900	6175 20 4
PC/ABS	Polycarbonate/Acrylnitrile-butadiene-styrene			/pc.	

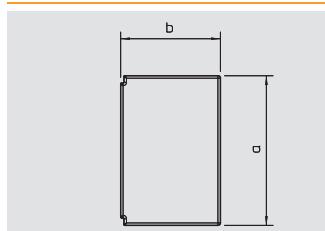

Flat angle cover for changing the direction of the halogen-free WDK-H trunking.

T and intersection hood

Type	Colour	Dimen- sion a mm	Pack. pcs	Weight kg/100 pcs.	Item No.
WDK-HT30045	Pure white	130	1	3.300	6175 25 5
PC/ABS	Polycarbonate/Acrylnitrile-butadiene-styrene			/pc.	

T and intersection cover for changing the direction of the halogen-free WDK-H trunking.

End piece

Type	Colour	Dimen- sion a mm	Dimen- sion b mm	Pack. pcs	Weight kg/100 pcs.	Item No.
WDK-HE30045	Pure white	45	30	1	0.800	6175 15 6
PC/ABS	Polycarbonate/Acrylnitrile-butadiene-styrene				/pc.	

End piece for closing the WDK-H trunking.

Wall and ceiling duct

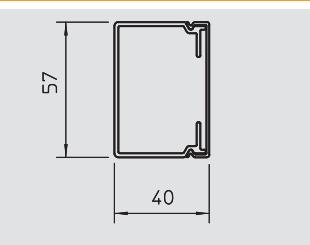

Cable routing

Duct, type WDK-H 40060

Type	Colour	Length mm	Pack. m	Weight kg/100 m	Item No.
WDK-H40060	Pure white	2000	24	40.600	6175 01 4
PC/ABS	Polycarbonate/Acrylnitrile-butadiene-styrene				/m

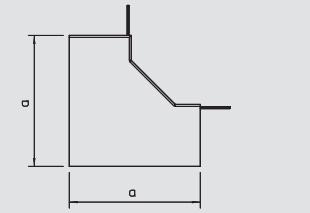

Trunking cover and base With base perforation made of halogen-free plastic including cover fixing devices.

Internal corner hood

Type	Colour	Dimension a mm	Pack. pcs	Weight kg/100 pcs.	Item No.
WDK-HI40060	Pure white	85	1	4.800	6175 05 7
PC/ABS	Polycarbonate/Acrylnitrile-butadiene-styrene				/pc.

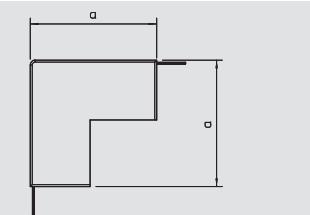

Internal corner cover for changing the direction of the halogen-free WDK-H trunking.

External corner hood

Type	Colour	Dimension a mm	Pack. pcs	Weight kg/100 pcs.	Item No.
WDK-HA40060	Pure white	85	1	5.600	6175 10 9
PC/ABS	Polycarbonate/Acrylnitrile-butadiene-styrene				/pc.

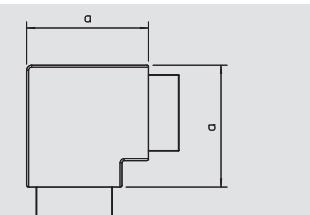

External corner cover for changing the direction of the WDK-H trunking.

Flat angle hood

Type	Colour	Dimension a mm	Pack. pcs	Weight kg/100 pcs.	Item No.
WDK-HF40060	Pure white	85	1	4.400	6175 21 0
PC/ABS	Polycarbonate/Acrylnitrile-butadiene-styrene				/pc.

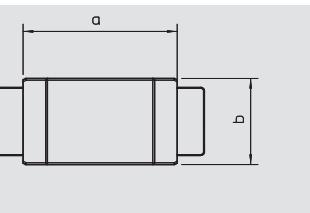

Flat angle cover for changing the direction of the halogen-free WDK-H trunking.

T and intersection hood

Type	Colour	Dimension a mm	Dimension b mm	Pack. pcs	Weight kg/100 pcs.	Item No.
WDK-HT40060	Pure white	170	—	1	7.200	6175 26 1
PC/ABS	Polycarbonate/Acrylnitrile-butadiene-styrene					/pc.

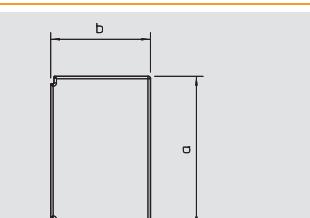

T and intersection cover for changing the direction of the halogen-free WDK-H trunking.

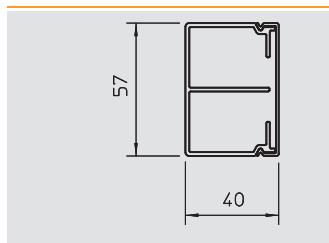

End piece

Type	Colour	Dimension a mm	Dimension b mm	Pack. pcs	Weight kg/100 pcs.	Item No.
WDK-HE40060	Pure white	60	40	1	1.200	6175 16 2
PC/ABS	Polycarbonate/Acrylnitrile-butadiene-styrene					/pc.

End piece for closing the WDK-H trunking.

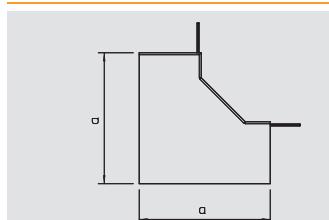

Wall and ceiling duct

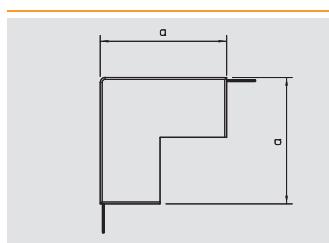

Type	Colour	Length mm	Pack. m	Weight kg/100 m	Item No.
WDK-H40061	Pure white	2000	24	46.700	6175 02 0
PC/ABS	Polycarbonate/Acrylnitrile-butadiene-styrene			/m	

Trunking cover and base With base perforation made of halogen-free plastic including cover fixing devices.

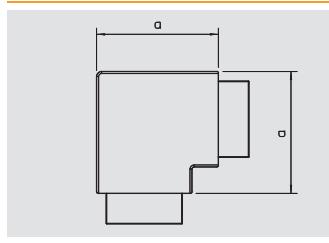

Type	Colour	Dimen- sion a mm	Pack. pcs	Weight kg/100 pcs.	Item No.
WDK-HI40061	Pure white	85	1	4.800	6175 06 3

It's all about making the right connection

Junction boxes for classic surface mounting are used to connect cables and to distribute electrical power. The perfectly matched systems, made up of junction box, glands and terminals can offer maximum IP protection against contact and foreign bodies, as well as against the ingress of water.

Much more versatile

The following pages contain a small overview of our product range for distributing and connecting cables, specifically for the requirements of tunnel construction. This selection is simply an extract from our main VBS Connection and fastening systems catalogue. This can provide you with a detailed overview of our complete product range for connection and fastening systems.

Distributing and connecting

T 60 KL	With terminal strip	7 x M25	Light grey	60	5	16.700	2007 43 4

PP Polypropylene

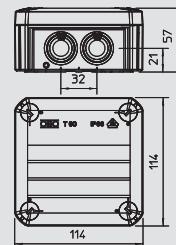

price/100 pc.

The junction boxes are made of a thermoplastic polypropylene polymer with plug-in seals made of ethylene vinyl acetate (EVA). This allows installation of cables either directly through the 7 x M25 seals, or the seals can be cut with a knife at the pre-marked points, in order to create an insertion opening for cables or pipes. Alternatively, cable glands can be pushed through the openings instead of the seals and locked with a locknut from the inside.

The junction boxes can be mounted on mounting plates in the openings on the floor using steel screws 3.5 x 9.5.

Clear internal dimensions: 100 x 100 x 48 mm

Cover with labelling panel and lead-sealed.

AQUASIT casting compound

Distributing and connecting

AQUASIT casting compound

Type	Contents	Pack.	Weight kg/100 pcs.	Item No.
KVM	0.25	1	42.000	2363 01 0

Aquasit is a two-component casting compound in a cartridge for applications in areas with extremely high, continuous moisture. It can also be used for mechanical shock and vibrations. The cartridge is suitable for use in standard cartridge pistols. The unopened aluminium packaging can be stored for up to a year at room temperature. After opening the cartridge, the material must be used within 24 hours.

Aquasit properties:

Protection rating: IP68 at 1.8 bar/1,000 h

Rated voltage: 400 V

Penetration resistance: >20 kv/mm to VDE 0291 Part 2

Operating temperature: -40 to +90 °C

Processing temperature: 0 to +40 °C

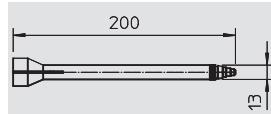

Halogen-free, silicon-free, isocyanate-free

Environmentally friendly and without the need to be labelled

Mixer tubes

Type	Pack.	Weight kg/100 PUs	Item No.
KVM-M	1	17.000	2363 01 5

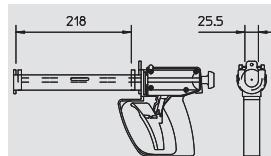

10 mixer pipes in the set.

Simple, automatic mixing of OBO AQUASIT when pressing out the compound from the cartridge.

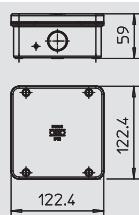

Cartridge pistol

Type	Pack.	Weight kg/100 pcs.	Item No.
KVM-P	2	100.000	2363 01 9

High-quality 1-K cartridge for use with the AQUASIT cold casting compound. The cartridge pistol can also be used with normal 300 mm cartridges.

UF Duroplast, Aminoplast, type 131.5 price/100 pc.

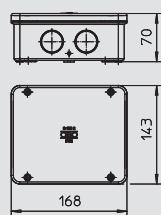

Approved for electrical function maintenance according to DIN 4102 Part 12, function maintenance classes E 30 to E 90.

Including pre-mounted connection unit made of high temperature-resistant special ceramic with fire protection bolt ties for anchorless fastening and 4 plug-in seals M32 or M40.

Power cable nominal cross-sections: 1.5 to 16 mm², data cable with wire Ø 0.8 mm. High protection rating IP65.

You can find details on cable types and manufacturers in the general construction testing certificate of the MPA NRW materials testing institute, Erwitte.

Number of terminals including protective conductor terminal
Internal clearance: 224 x 149 x 75 mm

Type	Size	For Ø mm	Colour	Box quantity pcs	Pack. pcs	Weight kg/100 pcs.	Item No.

TPE Thermoplastic elastomer price/100 pc.

Plug-in seal for the junction box, type FireBox.

To avoid failures

OBO lightning and surge protection systems help to maintain the function of tunnel constructions if there are direct lightning strikes or, which is much more common, surge voltages, and thus are able to guarantee an unimpeded traffic flow and protect the power supply.

And much, much more....

On the following pages, you will find an extract from our main catalogue, which will inform you about the various different systems for internal and external lightning and surge protection. You can find additional detailed explanations and planning aids in our TBS catalogue (Transient and lightning protection systems).

External and internal lightning and surge protection

	External and internal surge protection	Round conductor, aluminium Interception rod, one end rounded Stand FangFix system 16 kg	52 52 52
		Screwless cable brackets	52
	Earthing and equipotential bonding	Stainless steel flat conductor Equipotential bonding rail Strip earthing clip	53 53 53
	Surge protection in energy technology	Combination arrester Lightning current and surge arrester Surge arrester	54 54 54
	Surge protection in data and video technology and MCR systems	Surge protection MCR protection Combination protection	56 56 57

External lightning protection

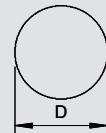

Round conductor, aluminium

Type	Material symbol	Inter-face	Nominal size Ø mm	Cross-section mm²	Normal ring ca. m	Normal ring ca. kg	Weight kg/100 m	Item No.
RD 8-ALU-T	Al	—	8	50	150	20	13.500	5021 29 4

Al Aluminium

price/100 m

- According to DIN EN 50164-2 (VDE 0185 Part 202)
- Meets the requirements of VDE 0185-305 (IEC 62305)
- RD 8/ALU: Semi-hard (E-AlMgSi0.5 corresponds to DIN 48801)
- RD 8/ALU-T: Twistable (E-AlMgSi0.5 corresponds to DIN 48801)
- RD 10/ALU: Pure aluminium (E-Al corresponds to DIN 48801)
- AL and ALMgSi may not be routed directly on, in or under the plaster, mortar or concrete nor underground

Interception rod, one end rounded

Type	Material symbol	Length mm	Nominal size Ø mm	Pack. pcs	Weight kg/100 pcs.	Item No.
101 ALU-2000	Al	2000	16	10	109.000	5401 83 6

Al Aluminium

price/100 pc.

- Ø 16 mm, Al
- For stand system with female thread M16

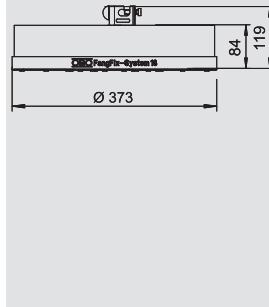

Stand FangFix system 16 kg

Type	Pack. pcs	Weight kg/100 pcs.	Item No.
F-FIX-16	1	1732.500	5403 20 0

price/100 pc.

- System consists of FangFix stone with base and clamp
- FangFix clamp made of VA; lightning current tested with 100 kA (10/350)
- 16 kg stone of Ø 365 mm, high level of stability
- Quick and easy mounting of interception rod using anchors
- Concrete, frost-resistant
- The FangFix stone can be stacked

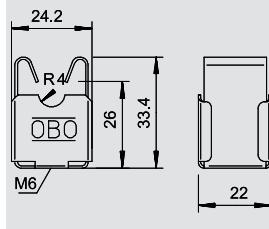

Screwless cable brackets

Type	Fit mm	Installation height mm	Pack. pcs	Weight kg/100 pcs.	Item No.
177 20 VA M6	Rd 8	20	50	2.500	5207 33 9

V2A Stainless steel, 1.4301

price/100 pc.

- With female thread M6 or through hole Ø 5 mm
- From stainless steel (V2A)
- Version -VK: copper-plated

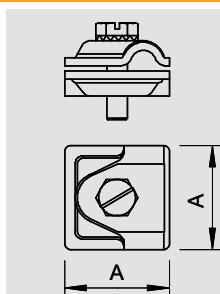

Variable earthing connector

Type	Fit mm	Dimen-sion A mm	Material symbol	Pack. pcs	Weight kg/100 pcs.	Item No.
249 8-10 ALU	Rd 8-10	44	Al	30	6.600	5311 51 9

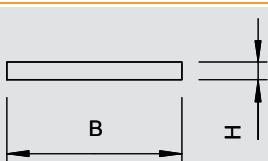

Al Aluminium

price/100 pc.

- For T, cross and parallel connectors
- Quick installation using hex-head screw M10 x 30, high-grade stainless steel
- Conforms to the requirements according to DIN VDE 0185-305 (IEC 62305)

Earthing and equipotential bonding

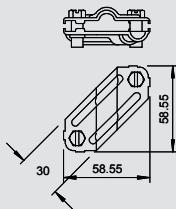

Type	Material symbol	Interface	Dimension b x h mm	Cross-section mm²	Normal ring ca. m	Normal ring ca. kg	Weight kg/100 m	Item No.
5052 V4A 30X3.5	V4A	—	30 x 3,5	105	50	42	82.425	5018 70 6

V4A Stainless steel, rust-proof 1.4401

price/100 m

- According to DIN EN 50164-2 (VDE 0185 Part 202)
- Meets the requirements of VDE 0185-305 (IEC 62305)
- For use in areas at risk of corrosion
- For lightning protection, earthing systems and ring equipotential bonding

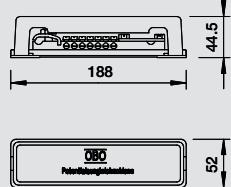

Type	Fit mm	Material symbol	Interface	Pack.	Weight kg/100 pcs.	Item No.
250 VA	Rd 8-10/FL30	V2A	—	25	10.260	5312 92 2

V2A Stainless steel, 1.4301

price/100 pc.

- Fit: Rd 8-10 x Rd 8-10
- Fit: Rd 8-10 x FL 30
- Fit: FL 30 x FL 30
- Installed with 2 hex-head screws M8 x 20 (F)

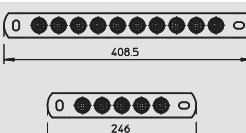

Type	Colour	Pack.	Weight kg/100 pcs.	Item No.
1809 A	Black	1	23.000	5015 11 1

V2A Stainless steel, 1.4301

/pc.

Connection options:

- 7 single or multi-core conductors to 25 mm² or fine-core conductors to 16 mm²
- 1 round conductor Rd 8-10
- 1 flat strip to FL30 or round conductor Rd 8-10
- Base plate and covering hood from polystyrene
- Colour: black, UV-resistant
- Screws and over-piece from VA
- Capable of carrying lightning current 100 kA (10/350)

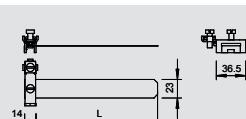

Type	Material symbol	Number of connections	Width mm	Length mm	Height mm	Pack.	Weight kg/100 pcs.	Item No.
1802 10 VA	V2A	10	40	408.5	6	1	190.000	5015 86 6

V2A Stainless steel, 1.4301

/pc.

- Main potential equalisation to VDE 0100 Part 410 and Part 540, and also lightning protection potential equalisation to VDE 0185-305 (IEC 62305)
- Insulation feet
- Quick, simple assembly of connection conductors to the contact rail using lock bolts M10
- The high-grade stainless steel versions (V2A) are suitable for outdoor use
- Complete with anchors and bolts for wall mounting
- With lock washer (DIN 137) for bolt locking against loosening (e.g. required in industry and Ex areas)

Type	for pipe Ø inch	for pipe Ø mm	Pack.	Weight kg/100 pcs.	Item No.
927 2 3/8-4	17.2-114		10	8.550	5057 52 3

V2A Stainless steel, 1.4301

price/100 pc.

- For pipes of Ø 3/8 - 6"
- Connection options: Max. 2 cables 2.5-25 mm²
- Round conductor Rd 8
- Clip element, bolts and tightening strap made of rustproof stainless steel (VA)

Surge protection in energy technology

Combination arrester/MCD, 255 V for TN-S and TT networks

Type	Highest continuous voltage V	Version	Pack.	Weight	Item No.
			pcs	kg/100 pcs.	
MCD 50-B 3+1	255	3 + NPE	1	168.000	5096 87 9

/pc.

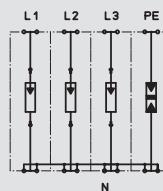

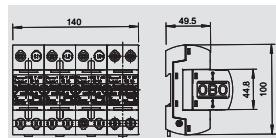

Combination arrester, Type 1, according to DIN EN 61643-11(B according to VDE 0675 Part 6).

Completely pre-terminated and ready for connection, consisting of:

MCD 50-B: Coordinated lightning current arrester, Type 1 (Class B) to EN 61643-11 and MCD 125-B/NPE: Coordinated N-PE spark gap, Type 1 (Class B) to EN 61643-11 for use in TN-S and TT systems. Interface 0 to 1 according to lightning protection zone concept according to IEC 61312-1 and VDE 0185-305 (IEC62305).

- Arresting capacity 50 kA 10/350 µs per pole (L-N)
- Arresting capacity 125 kA (10/350 µs) per pole (N-PE)
- Suitable for any TN or TT system
- Conforms to VDN Directive 2nd Edition 2004
- Protection level < 1.3 kV
- Line follow current quenching 25 kA Ipeak
- Incl. plug caps for identifying the connections
- Encapsulated, non-extinguishing spark gap

Application: Lightning protection equipotential bonding in buildings with external lightning protection of Class I to IV and in standard distributor housings.

Lightning current and surge arrester / V50, 280 V

Type	Highest continuous voltage V	Version	Pack.	Weight	Item No.
			pcs	kg/100 pcs.	
V50-B+C 3+NPE	280	3+NPE	1	55.000	5093 65 4

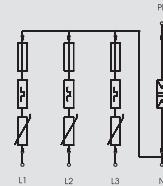

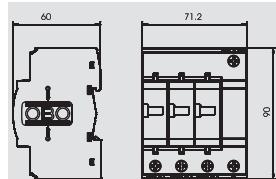

/pc.

Combination arrester set, lightning and surge arrester Type 1+2 to DIN EN 61643-11 (B+C to VDE 0675 part 6).

- For lightning protection equipotential bonding to VDE 0185-305 (IEC 62305)
- Lightning current arresting capacity 12.5 kA (10/350) per pole and 50 kA (10/350) in total
- Universally suitable for TN and TT systems
- With new Multibase base with multi-connection terminals
- Complete unit, consisting of cover and base, pre-mounted and ready for connection
- Arrester, connectable with dynamic cut-off unit
- With visual function display
- Voltage protection level < 1,3 kV
- Encapsulated, non-extinguishing zinc oxide varistor arrester for use in distributor housings
- Labelled connections

Application: Equipotential bonding in buildings, even those with external lightning protection of class III and IV, and in standard distributor housings.

* Complete = cover and base

Surge arrester / V20, 280 V

Type	Highest continuous voltage V	Version	Pack.	Weight	Item No.
			pcs	kg/100 pcs.	
V20-C 3+NPE-280	280	3 + NPE	1	41.700	5094 65 6

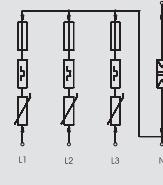

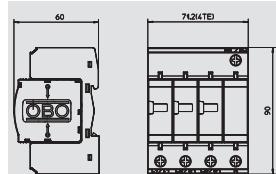

/pc.

V 20-C/...: Surge protection device Type 2 (Class C) to VDE 0675 part 6-11 (DIN EN 61643-11).

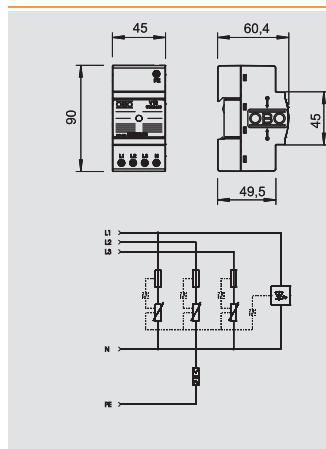

- With new MultiBase base part and Multi-connection clamps
- Complete unit consisting of upper part and base, pre-mounted and ready for connection
- VDE-tested
- Suitable for TN- and TT network systems
- Plug-in upper part; upper part can be separated from base without tools
- Including thermal and dynamic separating device
- With visual display of defects
- High current conductivity and long service life
- Marked connections

Application example: residential buildings, single-family homes without outer lightning protection system.

* Complete = cover and base

Surge protection in energy technology

Surge arrester / V10 Compact, 255 V

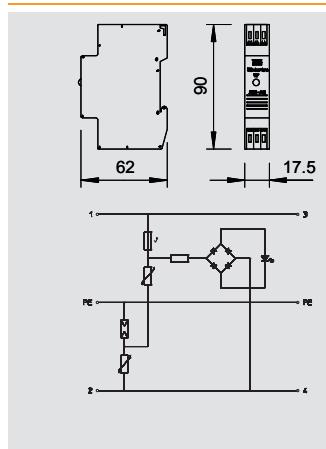

Type	Highest continuous voltage V	Version	Pack.	Weight kg/100 pcs.	Item No.
V10 COMPACT 255	255	3 + NPE	1	15.800	5093 38 0

/pc.

Surge arrester, Type 2+3 to EN 61643-11 (Class C+D to VDE 0675 Parts 6-11)

- Suitable for TN and TT network systems
- Integrated 3+1 solution
- Incl. thermal and dynamic cut-off unit
- With visual function display
- High current conductivity with long lifespan
- Labelled connections
- Separation unit only 45 mm

Application: Industrial, housing and protection of rotary current systems

Surge arrester / VF, 255 V

Type	U max AC V	U max DC V	Version	Pack.	Weight kg/100 pcs.	Item No.
VF230-AC/DC	255	350	230 V version	1	8.000	5097 64 9

/pc.

Surge protection device, fine protection Type 3 to EN 61643-11 (Class D to VDE 0675, Parts 611)

- Suitable for DC and AC voltage systems
- With visual function display
- With installation-friendly, screwless connection terminals
- In a space-saving 17.5 mm grid
- Y circuit

Application: Universal use on 35 mm hat profile rail in every normal commercially available distributor housings.

Surge protection in data and video technology and MCR systems

Surge protection for telecommunication systems

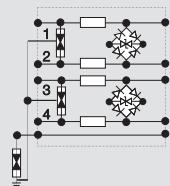

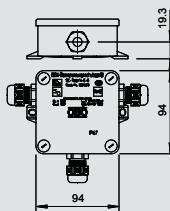

Type	Version	Connection system	Pack.	Weight	Item No.
			pcs	kg/100 pcs.	
SC-TELE 4-C-G	Combi protection	Terminal	1	30.000	5081 68 8

/pc.

Data cable protection device for telecommunication systems in insulated housing

- Suitable for any analogue, ISDN or DSL system
- Supports ADSL 2
- With two-level protective circuit
- Insulating housing to IP 54
- With screwless terminals for quick mounting
- For 2 DA systems (4 protected cores)

Application: For use at supply location on line, upstream of NT-S0 or splitter interface.

Surge protection for LSA-Plus systems

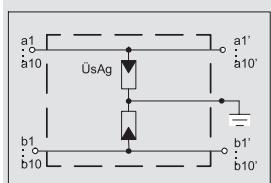

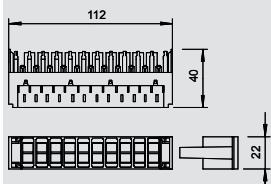

Type	Highest continuous voltage V	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
LSA-B-MAG	180	1	8.600	5084 02 0

/pc.

LSA-B-MAG: LSA basic protection magazine for use in multi-core data cable systems, MCR systems and telephone switchboards.

- Basic protection
- Fitted with 20 gas discharge protectors
- Max. voltage: 180 V

Application: Direct on LSA-Plus separation or connection bars

MCR protection for two-core systems

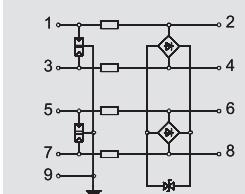

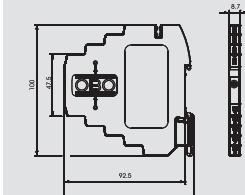

Type	Nominal voltage V	Version	Maximum continuous voltage Vc / AC V	Maximum continuous voltage Vc / DC V	Pack.	Weight	Item No.
					pcs	kg/100 pcs.	
MDP-4 D-24-T	24	4-pole	20	28	1	5.800	5098 43 1

/pc.

MDP.../D...T: Lightning barrier with test function

- Protection device for multi-wire systems
- Direct shield earthing
- With easy-to-mount screwless connection terminals
- Space-saving width of just 8.1 mm
- Protection circuit testable with Life Control
- High bandwidth to 100 MHz

Application: Use on 35 mm hat profile rail in any standard distribution housing.

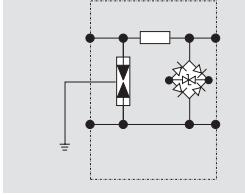

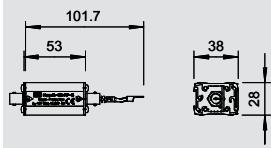

Surge protection for coaxial systems

Type	Version	Connection system	Pack.	Weight	Item No.
			pcs	kg/100 pcs.	
KOAX B-E2 MF-F	Fine protection	Coax connector	1	15.000	5082 42 0

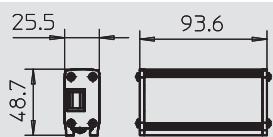

/pc.

Data line protection device for coaxial Ethernet network systems.

- In aluminium housing
- BNC connector for Cheapernet, 10BASE2
- Simple installation with adapter plug
- Two-stage protection circuit
- Suitable for the protection of video signals; cameras and/or TV systems

Surge protection in data and video technology and MCR systems

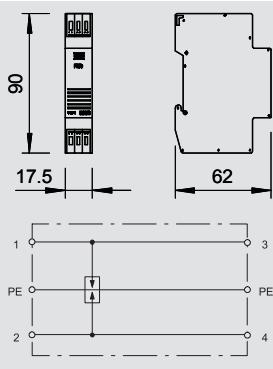

Type	Version	Connection system	Pack.	Weight	Item No.
			pcs	kg/100 pcs.	
ND-CAT6A/EA	8-pole	RJ45	1	16.600	5081 80 0

Data cable protection devices for high-speed networks

- High-quality RJ-45 sockets
- Low protection level at high current load
- Support for Power over Ethernet + up to 1 A
- Tested transmission quality in networks up to 10 GBit (Class EA) or CAT6A
- Quick installation through connectable version

Application example: 10 GBit Ethernet, 10/100 MBit Ethernet, PoE applications

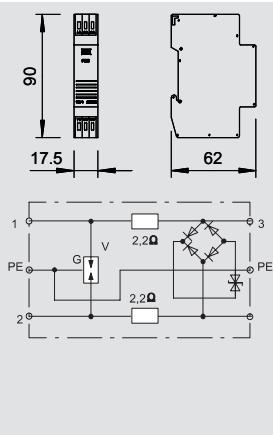

Type	U max DC V	U max AC V	Pack.	Weight	Item No.
			pcs	kg/100 pcs.	
TKS-B	170	120	1	7.500	5097 97 5

Basic protection for use in measuring, control and regulation systems, as well as telecommunication systems

- Basic protection for lightning protection equipotential bonding
- High impulse deflection capacity 6 kA (10/350)
- With installation-friendly, screwless connection terminals
- In space-saving 17.5 mm grid

Application: Universal use on 35 mm hat profile rail in any standard distributor housings.

Type	U max DC V	U max AC V	Pack.	Weight	Item No.
			pcs	kg/100 pcs.	
FRD 24 HF	28	19.7	1	5.000	5098 57 4

Surge protection for use in measuring, control and regulation systems.

- Basic, medium and fine protection
- Two-stage protection circuit with high lightning current carrying capacity
- High transmission frequency of 100 MHz
- Suitable for all bus systems (e.g. Profibus)
- With installation-friendly, screwless connection terminals
- In space-saving 17.5 mm grid

Application: Multi-purpose use on any 35 mm hat profile rail in every commercially available distribution housings.

Perfect fire protection for any area

OBO can offer a complete range of professional products for all application areas of fire protection systems in building installation. Tested cable insulation systems have proved the required effect in a fire test. The approvals are based on fire tests, which are carried out by official materials testing offices on the basis of DIN 4102 Part 9. In addition, we can also offer the knowledgeable advice of an experienced, competent system manufacturer.

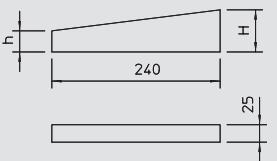

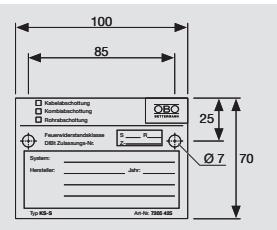

And much, much more....

On the following pages, you will find an extract from our main catalogue, which will inform you about the various different insulation systems. You can find additional detailed explanations and planning aids in our BSS catalogue (Fire protection systems).

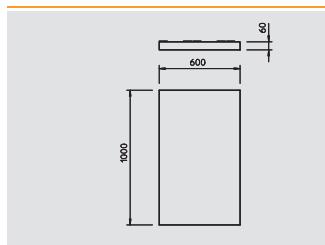

Construction fire protection

	Insulation systems	HSM hard ballast	60
		FPS-P finished coating plate	61

Insulation: HSM mortar ballast

	<p>HSM hard ballast in a sack</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th>Type</th><th>Contents kg</th><th>Pack.</th><th>Weight kg/100 pcs.</th><th>Item No.</th></tr> </thead> <tbody> <tr> <td>HSM-S</td><td>20</td><td>1</td><td>2050.000</td><td>7206 10 0</td></tr> </tbody> </table> <p style="text-align: right;">/pc.</p> <p>Wall ballast, dry mortar in a sack Free of fibres, halogens and phenols, suitable for pumping, pressing and for manual installation. Type	Pack.	Weight kg/100 pcs.	Item No.									
KS-S	1	2.400	7205 42 5									

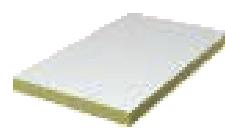

Insulation: FPS ready-assembled panel insulation

Type	Dimension mm	Pack.	Weight kg/100 pcs.	Item No.
FPS-P	1,000 x 600 x 60	2	684.000	7202 27 0

/pc.

Mineral fibre plate, ready coated with insulation forming substance, as the basis of the FPS insulation system, fire resistance class S90, DIBt approval Z-19.15.1636.

Type	Dimension	Pack.	Weight kg/100 pcs.	Item No.
FPS-A	2kg	1	220.000	7202 27 4

/pc.

Intumescence coating for FPS ready-assembled panel insulation To coat the cables, cable support systems and the path sealing. In dry, frost-free rooms, the coating can be stored at temperatures from +5 °C to +30 °C for up to 12 months in closed original containers.

Type	Contents	Pack.	Weight kg/100 pcs.	Item No.
FPS-SP K	0.31	1	41.000	7202 27 8

/pc.

Fire protection filler in a cartridge, for filling residual joints and for retroinstallations in the FPS assembled panel insulation.

Also approved as intumescence material for closing drill holes for individual cable penetration. Fire resistance classes F30 to F90, DIBt approval Z-19.11-1594. In dry, frost-free rooms, the filler can be stored at temperatures from +5 °C to +30 °C for up to 12 months in closed original containers.

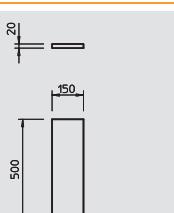

Type	Dimension	Pack.	Weight kg/100 pcs.	Item No.
FPS-SP E	5 kg	1	500.000	7202 28 1

/pc.

Fire protection filler in a bucket, for filling residual joints and for retroinstallations in the FPS assembled panel insulation.

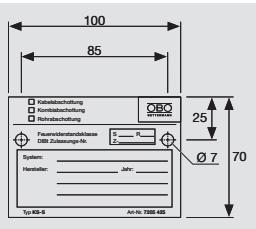

Also approved as intumescence material for closing drill holes for individual cable penetration. Fire resistance classes F30 to F90, DIBt approval Z-19.11-1594. In dry, frost-free rooms, the filler can be stored at temperatures from +5 °C to +30 °C for up to 12 months in closed original containers.

Type	Dimension mm	Pack.	Weight kg/100 pcs.	Item No.
FPS-K	500 x 150 x 20	1	42.000	7202 28 2

/pc.

Calcium silicate plate for FPS assembled plate insulation, for the construction of frames in the penetration or doubling for wall thicknesses of less than 15 cm. Materials class A1 – non-combustible

Type	Pack.	Weight kg/100 pcs.	Item No.
KS-S	1	2.400	7205 42 5

/pc.

Universal identification plate to be written on for all OBO insulation. For approved identification, including two push-fit anchors.

Duct, type WDK-H 60090, 40
Duct, type WDK-H 60110, 41
Duct, type WDK-H 60150, 42

E

Electrical installation pipe, 33
End piece, 37-42
Equipotential bonding rail for outside installation, 53
External corner hood, 37-42

F

Fastening bracket, 24
Fire protection bolt tie, 36
FireBox, 49
Flat angle hood, 37-42
FPS-A coating, 61
FPS-K calcium silicate plate, 61
FPS-P finished coating plate, 61
FPS-SP filler in a bucket, 61
FPS-SP filler in a cartridge, 61

G

G mesh cable tray Magic, 22

H

Head plate, 27
Head plate, variable, 26
Hexagonal bolt, 26-27
HSM hard ballast in a bucket, 60
HSM hard ballast in a sack, 60
HSM-NIK retrofit wedge, 60
HSM-SP filler in a cartridge, 60

I

Identification plate, 60-61
Interception rod, one end rounded, 52
Internal corner hood, 37-42

J

Joint connector, 20
Joint plate, 14, 17
Junction box, T series, 46
Junction box, T series, closed, 47

L

Lightning current and surge arrester / V50, 280 V, 54

M

MCR protection for two-core systems, 56
Mesh cable tray GR-Magic®, 19
Mixer tubes, 48
Mounting plate, 17, 21
Mounting/branch piece, 17

P

Pipe connection sleeve, 33
Profile rail, slot 16.5 mm, 15
Profile rail, slot 17 mm, 15
Profile rails VA, 30
Protective cap, 23, 25-26

Q

Quick connector, 20

R

Reducing bracket and end closure, 17
RKSM cable tray, 16
Round conductor, aluminium, 52

S

Screwless cable brackets, 52
Separating retainer, 14, 16, 20
Separating retainer connector, 16, 20
Slide nuts, 31
Spacer, 25-27
Stainless steel flat conductor, 53
Stand FangFix system 16 kg, 52
Straight and angle connector, 14, 16
Straight connector, 23
Strip earthing clip, 53

S

Surge arrester / V10 Compact, 255 V, 55
Surge arrester / V20, 280 V, 54
Surge arrester / VF, 255 V, 55
Surge protection for coaxial systems, 56
Surge protection for LSA-Plus systems, 56
Surge protection for network technology, 57
Surge protection for telecommunication systems, 56
Suspension clamp, 14

T

T and intersection hood, 37-42
Threaded rod, 21
Truss-head bolt, 15, 26-27, 29

U

U support connector, 25
Unperforated cover, 22
US 3 support, 25

Numeric directory

Structure of the EAN number: Country code 40

Manufacturer code 1219 (for articles beginning with 0: 1010)

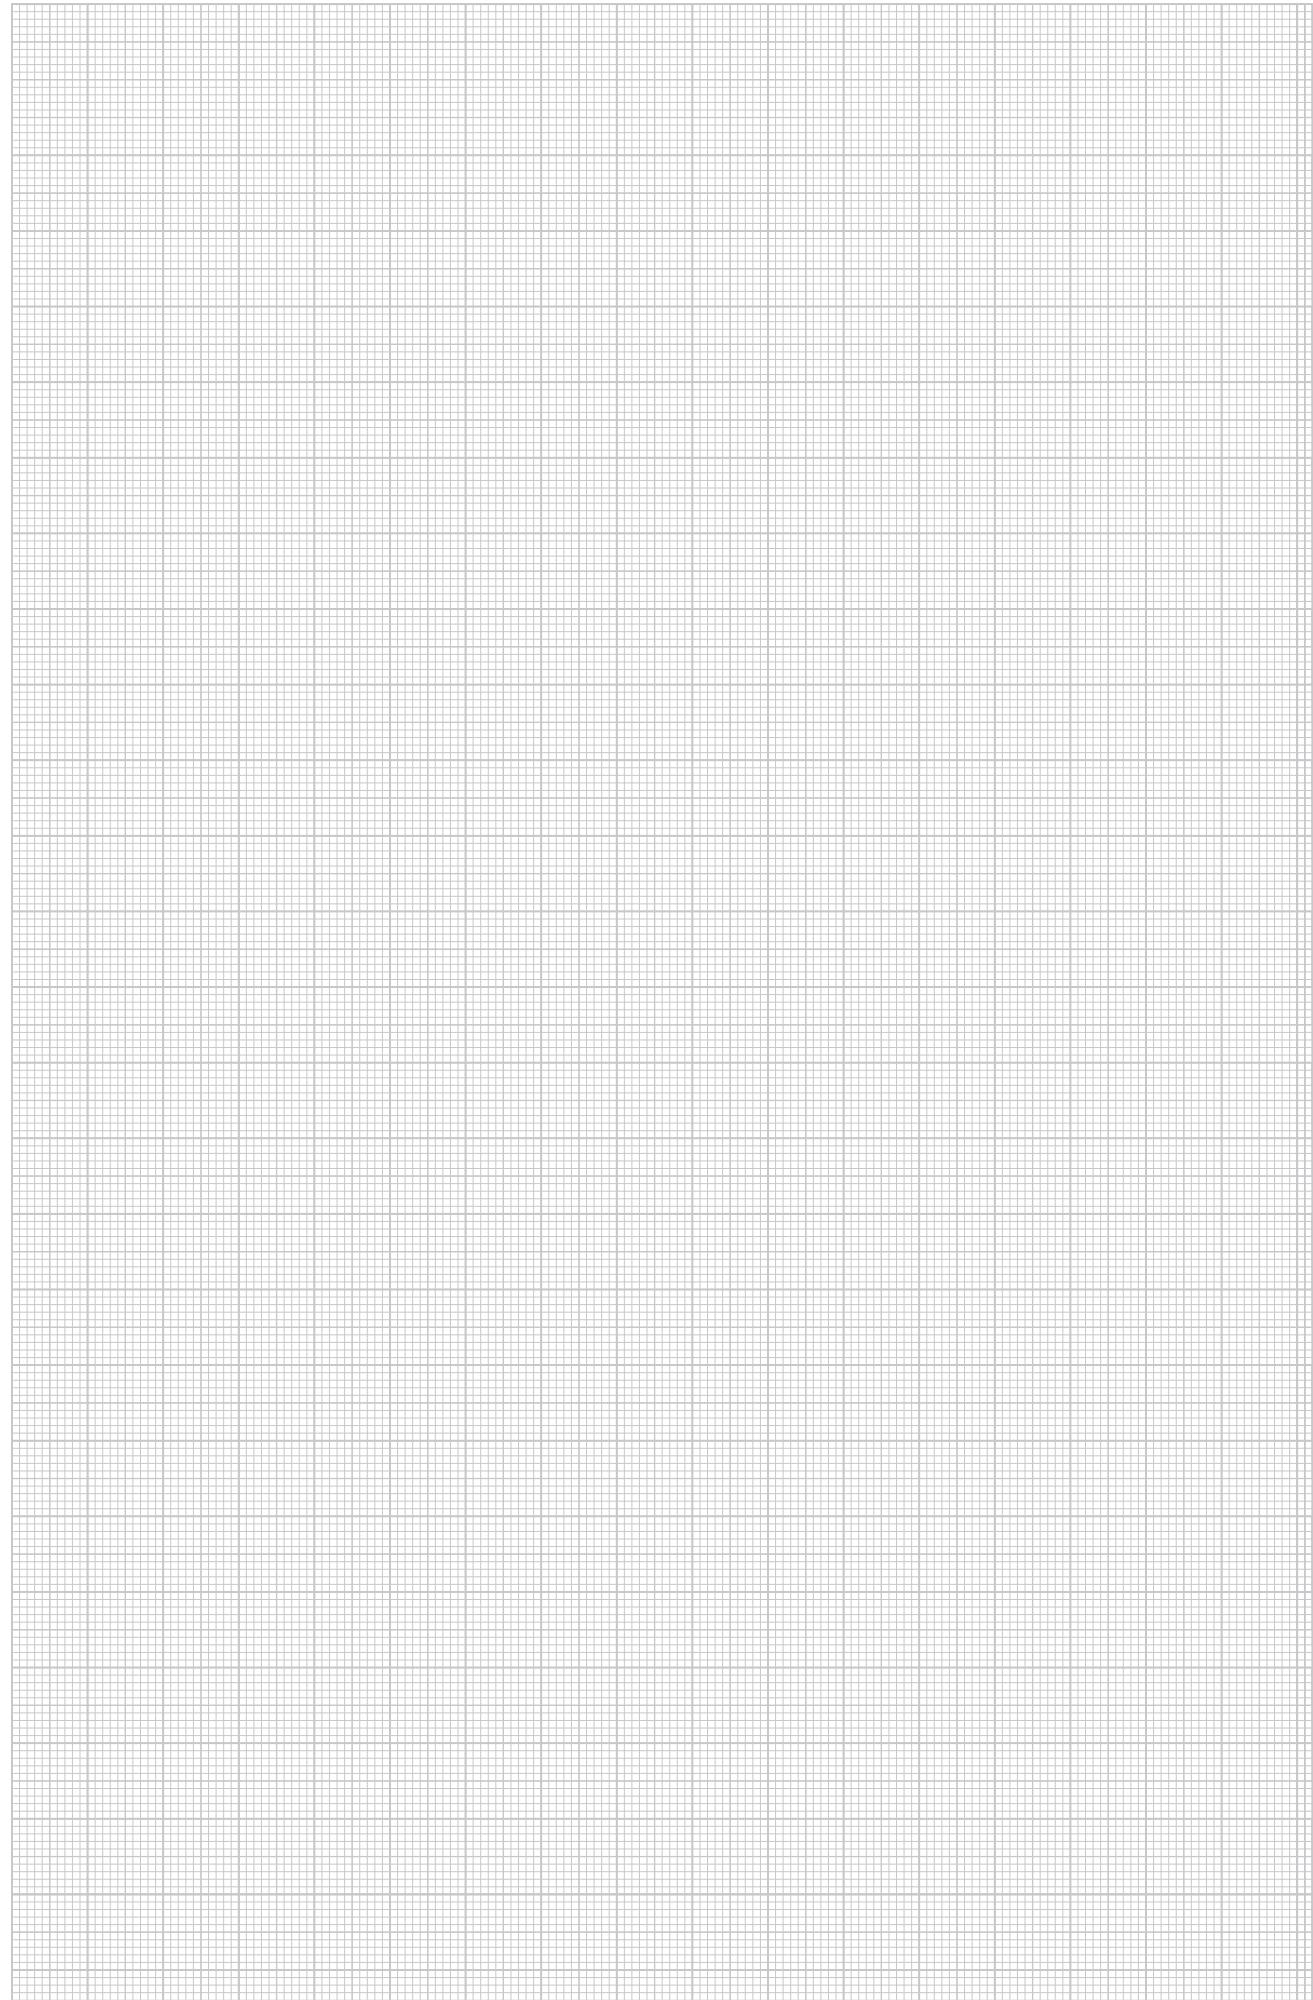

Individual EAN-C 5647589

Terms and conditions of sale and delivery of the companies OBO BETTERMANN GmbH & Co. KG and OBO BETTERMANN Projekt und Systemtechnik GmbH, and OBO Befestigungselemente GmbH, Menden

1. All our supplies and services shall be governed exclusively by the following terms and conditions, including our additional terms and conditions for cable tray business transactions. Any terms and conditions of business and purchasing of the customer shall be valid only if we have acknowledged them in writing. Our quotations are without engagement; they are mere invitations to submit contract offers. Any and all transactions and agreements, including those entered into by our employees and agents shall only be binding upon our written confirmation or invoicing. The foregoing provision shall also apply to any modifications of the agreed formal requirements.

2. The documents and data pertaining to the quotation, such as illustrations, brochures, drawings, dimensions, loading capacity values and weight details are approximate only, unless they are expressly stipulated to be binding.

Samples are non-binding samples for inspection. Any purchase according to sample will be subject to customary deviations and deviations resulting from normal production processes. The properties of the sample shall be no guaranteed quality of the purchase object unless expressly stated otherwise in the confirmation of order. Samples must be returned to us at the latest within four weeks in perfect condition. If they are not returned within this period in proper condition, we shall be entitled to charge the purchase price for the sample in accordance with our current price list. All information on our products, in particular the illustrations, drawings, weight, dimension and performance data included in our quotations and printed matter shall be regarded as approximate average values and shall not represent any quality guarantee.

With regard to products made according to customer drawings, samples and other instructions of the customer, we will not provide any warranty nor assume any liability for the due and proper functioning of the product or for any other defects if and to the extent they are based upon the customer's specifications. The customer shall indemnify us from any third party claims, including claims for product liability as may be asserted against us for damages resulting from the products unless we have caused such damages by intent or gross negligence. The customer shall warrant that the manufacture and supply of products made in accordance with his instructions will not infringe any proprietary rights of third parties. Should any proprietary rights be asserted against us, we shall be entitled, without any legal review of the third party claims, to withdraw from the contract after hearing the customer, unless the third party withdraws the claims asserted against us under its proprietary rights within eight days by written declaration. The customer shall compensate us for any damage sustained as a result of the assertion of proprietary rights. In case of withdrawal, the work we have carried out so far shall be remunerated. Further rights under the statutory provisions shall not be affected thereby.

Any moulds, tools and design data produced by us for the execution of the order shall be our exclusive property. Unless expressly agreed otherwise, the customer shall not have any claims thereto, even if he has contributed to the costs of producing any such moulds, tools and design data.

3. The packing, shipping route and means of transportation shall be left to our discretion in the absence of any other agreements. They shall be charged at their cost price. We will take back undamaged cases, when being returned carriage paid, at 2/3 of the amount invoiced. The one-way or pool pallets used for transport shall be either exchanged upon taking delivery or returned. The smallest packing units stocked and listed may not be broken up for rationalisation reasons. In case of orders for different quantities, the nearest packing unit will be supplied.

We reserve the right to deviate from the agreed delivery quantity, in particular in the case of custom-made products, to a customary extent or in conformity with national or international standards. In case of a demand for adhering to a precise quantity, an express reference is necessary and subject to confirmation.

Master and call orders shall oblige the customer to accept the total quantity on which the master/call order is based. Where no particular call orders are specified in the contract, the total quantity of the master call order must be called within twelve months. If the customer fails to adhere to call deadlines, we shall be entitled to deliver and charge the total quantity in full after four weeks from written notice with reference to the consequences of any failure to call. Our rights arising from any default of the customer shall not be affected thereby.

4. Unless otherwise agreed, our prices are quoted ex works and do not include packing and insurance. The value added tax at the rate applicable on the date of dispatch will be added to our prices. The purchaser shall ensure the correctness of his VAT identification number, which he must notify to us immediately without being asked. He shall undertake to inform both us and the competent domestic tax authority without delay of any change in his name, address and VAT identification number.

Delivery shall be franco domicile within Germany, i.e. carriage and packing prepaid, if the net order value is in excess of € 1,200. For small orders below € 100 (net excluding value added tax), we shall invoice a lower quantity surcharge of € 10 (net) per order. Upon transfer of our supplies and services to a carrier or forwarding agent, at the latest upon their leaving our warehouse or supply plant, the risk shall pass to the recipient, even in case of delivery free place of destination.

5. Delivery periods and delivery deadlines shall be approximate only unless we have expressly stated in writing that they are binding. Delivery periods shall commence upon receipt of our confirmation of order, but not before clarification of all execution details, ex place of delivery. The customer shall only be entitled to withdraw from the contract after having granted a reasonable extension of time. We reserve the right to make partial deliveries. Claims for damages and reimbursement of expenses - for any reason whatsoever - shall be subject to the provisions set out in article 10.

In the event of any circumstances that are beyond our control within the scope of normal operating risks and obstruct or make impracticable any delivery, we shall be entitled to suspend delivery by the duration of such obstruction plus a reasonable start-up period or to withdraw from the contract for the part not yet fulfilled. The purchaser can demand a statement from us as to whether we wish to deliver within a reasonable period or withdraw. If we fail to make such a statement, the purchaser may withdraw. Our notice to the purchaser shall be deemed to be sufficient evidence that we have been prevented from delivering.

Delivery time is extended in case of such events as labour disputes, strikes and lockouts, orders from the authorities, difficulties with the procurement of materials, spoiled work or post-processing, shutdowns and staff shortage as well as shortage of means of transport, and general occurrence of unforeseen events beyond our scope of influence, by the length of duration of these events.

6. Payments shall be made upon receipt of invoice less a 3% cash discount for payment within 10 days or net after 30 days from date of invoice. Erection work and all paid labour work must be paid within 10 days without deduction of any cash discount. In case of non-cash payments, the date of the credit note will be deemed to be the date of receipt of payment. Payments received shall always be credited first against costs, then against interest and then against the earliest liability. Cheques and bills of exchange shall only be accepted as means of payment. Any payment by bill of exchange shall be subject to a prior separate and written agreement, whereby all bill costs shall be borne by the customer and no discount can be granted. The customer shall have no right to refuse performance and no right of retention - for any legal reason whatsoever - unless we have acknowledged his claim beforehand in writing or his claim has the force of law.

The customer shall only be entitled to set off claims which have the force of law, are undisputed or acknowledged by us in writing.

7. We shall retain title to the goods supplied by us until all our claims arising from our business transactions with the customer have been satisfied - current account clause - and all bills of exchange or cheques submitted for payment by the customer have been honoured.

Any treatment or processing of goods subject to our retention of title (reserved goods) shall be carried out for us as the manufacturer in accordance with § 950 BGB (German Civil Code) without any obligation on our part. If our reserved goods are to be regarded as the main item or the main item is owned by the customer, full title to the new item shall pass to us when it is created. In other cases, we shall acquire a co-ownership interest in the new item in the proportion of the sales value of our reserved goods to the other goods used for the new item at the time of processing, intermingling, joining or mixing. The customer shall take custody of our ownership or co-ownership interest free of charge; it shall be treated as reserved goods.

Before transfer of title, our goods shall be neither pledged nor assigned as collateral without our prior consent. In addition, any third party rights or pledges shall be notified to us immediately and we shall be given all details and provided all documents necessary for intervention; otherwise the customer must bear our loss. In the latter case, our total claims against the customer shall also be immediately payable.

The customer shall be entitled to sell or to use our reserved goods in the ordinary course of business subject to the condition that the relevant claims are transferred in accordance with article 8 below. This right shall lapse upon the customer's failure to promptly meet his payment obligations towards us or in the event of any cheque or bill protests or his suspension of payments. In such cases, we shall be entitled to take back the goods provisionally at the

customer's expense and to sell them at our duly exercised discretion after a corresponding reminder has been sent to the customer. We will then pass the due amount to the customer's credit.

8. If our goods are sold before payment of our claim, the customer shall be obliged to retain our title against his purchaser until the goods have been paid for in full by the purchaser. The claim arising against the purchaser from such resale as well as any other ancillary rights or security interests of the customer resulting from the sale and any claims for compensation in case of damage to or destruction of our reserved property, including the relevant insurance sum shall hereby be assigned to us. We hereby accept this assignment. Where our co-ownership interest is sold, the relevant claims shall be assigned in the amount corresponding to the value of our interest.

The customer shall, at our request, inform us of his purchasers, notify them of the assignment made and provide us with any and all documents required to assert our rights.

As long as the customer meets his contractual obligations without delay, he shall be authorised to collect the claims assigned. He shall keep the amounts collected on our behalf separately and remit them to us immediately as soon and as far as our claims become due. The authorisation shall lapse in case of any cheque or bill protest of the customer or his definite suspension of payments. The customer shall bear the costs incurred for any action taken against third parties and shall advance them upon request.

If the security provided to us by the retention of title and the anticipatory assignment should exceed the claims to be secured by more than 20%, we shall, at the customer's request, release paid supplies of our choice. Upon payment of all our claims by the customer, assigned claims shall pass to the customer.

9. Any complaints for obvious defects regarding the quantity or quality of our supplies and services that are identifiable upon careful inspection shall without delay, but at the latest within the period of limitation of eight days from arrival of the goods at the address of the customer or the person appointed by him, be notified in writing to us, not to our representatives. Slight deviations in dimensions and designs within the scope of defined technical tolerances shall not give rise to any right of complaint. Any rejected goods may only be returned to us with our prior written authorisation.

In case of justified complaints within the prescribed period, we shall, at our option, take remedial action by way of subsequent performance, by rectifying the defect, supplying non-defective goods or providing a credit note for the lower value calculated.

We shall be entitled to refuse subsequent performance in accordance with the statutory provisions. If we refuse subsequent performance, if any subsequent performance remains unsuccessful or if the customer cannot be reasonably expected to accept any subsequent performance, the latter shall be entitled to withdraw from the contract in compliance with the provisions of the following sentences. The customer shall only be entitled to withdraw from the contract - where a withdrawal is not excluded by law - upon the unsuccessful expiry of a reasonable period for subsequent performance set by him, unless this period was not required under the statutory provisions (§§ 281 para. 2, 323 para. 2, 440, 441 para. 1 BGB (German Civil Code)).

In case of his withdrawal, the customer shall be liable for any deterioration, destruction or loss of use resulting from any negligence or intent on his part. Any claims for damages or reimbursement of expenses of the customer shall be subject to the provisions set out in article 10.

In the case of any fraudulent concealment of a defect or in the case of any provision of a quality guarantee for the goods sold at the time of the passing of risk within the meaning of § 444 BGB (German Civil Code) (seller's declaration that the object sold has a specific property at the time of the passing of risk and that the seller, regardless of any fault on his part, intends to be answerable for any and all consequences resulting from its absence), the customer's rights shall be exclusively governed by the statutory provisions.

We shall - in addition to the statutory grounds for refusal - also be entitled to refuse subsequent performance if and as long as the customer fails to send us, at our request, the rejected goods or a sample thereof; the customer shall have no right of withdrawal for any such refusal. We may further refuse any subsequent performance if the goods concerned have been altered or modified without our consent unless the customer can prove that the defect was not caused by such alteration or modification.

The limitation period for any claims arising from defects shall be one year; in the case of goods which have been used in accordance with their intended purpose for a building and have caused its defectiveness, the limitation period shall be two years. The provisions of §§ 478, 479 BGB (German Civil Code) on recourse in the chain of suppliers shall not be affected thereby.

10. In the case of a pre-contractual, contractual or non-contractual breach of duty, including unsatisfactory delivery, tortious conduct and producer's liability, we shall only be liable for compensatory damages and reimbursement of expenses - subject to further contractual or statutory liability requirements - in the case of intent, gross negligence or slightly negligent breach of a material contractual duty (contractual duty the infringement of which jeopardises the fulfilment of the object of the contract). However - except in the case of intent - our liability shall be limited to the typical contractual damage that was foreseeable at the time the contract was entered into.

The purchaser shall not be permitted to make a claim for expenses incurred in vain.

Except for any breach of material duties, our liability for slight negligence shall be excluded, but in any case be limited to the amount of the purchase price.

Any claim asserted by the customer or a third party for payment of a contractual penalty shall be excluded.

With regard to damages caused by delay, we shall only be liable for slight negligence up to the amount of 5% of the purchase price agreed with us.

The exclusions and limitations of liability set forth above shall not apply in the event that a guarantee is given with respect to the quality of the object sold within the meaning of § 444 BGB (German Civil Code) if a defect is fraudulently concealed or in the event of injury to life, physical injury or injury to health, or strict liability under the German Product Liability Act.

Any and all claims for damages against us, for any legal reason whatsoever, shall become statute-barred at the latest after one year from delivery of the goods to the customer, in the case of tortious liability from the time of knowledge, or grossly negligent ignorance, of the circumstances giving rise to the claim and the person liable to pay damages. This provision shall not apply in the case of liability for intent and in the event that a guarantee is given for the quality of the object sold, in the case of fraudulent concealment of a defect or in the event of injury to life, physical injury or injury to health, or strict liability under the German Product Liability Act. Any shorter limitation periods shall take precedence.

11. We shall be entitled to process and store any customer data obtained with regard to or in connection with the business relationship in accordance with the German Federal Data Protection Act, irrespective of whether such data is provided by the purchaser himself or by any third parties.

12. Place of performance for delivery and payment is Menden/Sauerland. The court of competent jurisdiction for any and all disputes, including disputes with regard to bills of exchange and cheques, is the Local Court (Amtsgericht) of Menden or, at our option, the District Court (Landgericht) of Arnsberg, irrespective of the value of the object in dispute. We shall, however, also be entitled to take legal proceedings against the customer at the place of his registered office.

German law shall be exclusively applicable. The application of international purchase laws is hereby excluded. Should, for any reason whatsoever, individual provisions of our terms and conditions of sale and delivery be invalid, the validity and binding nature of the other provisions shall not be affected thereby. The customer agrees, that the invalid provision shall be replaced by a valid provision that comes as close as possible to the economic meaning of the invalid provision.

13. The prices of products made of brass and copper are subject to certain fluctuations that are based on the relevant DEL listings. The prices of our brass articles are based on a DEL listing of € 150 for Ms 58, those of our copper products on a DEL value for electrolytic copper of € 200.

In case of any increase or reduction in these prices by more than € 15, a five per cent surcharge or deduction shall be made for each 15 points. The calculation of any such surcharges or deductions shall be based on the DEL listing of the date of our receipt of the order.

Valid from August 2004
